

WHAT DO SCHOOLS NEED IN 2021

Schools Plus helps children facing disadvantage succeed at school. Through our Smart Giving program, we provide funding, coaching and resources to support strategic school initiatives that improve student outcomes. Here are the insights from the 2021 application round.

THE TOP FOUR CHALLENGES SCHOOLS NEED HELP TO ADDRESS

Student wellbeing

The number of students with anxiety and social/emotional needs is rising, exacerbated by the events of recent years. Projects include initiatives such as trauma-informed practice and allied health support.

Literacy

Strong literacy skills underpin a child's ability to thrive at school and beyond. Projects will ensure students of all ages improve their reading, writing and language skills, many through the support of speech pathologists.

Student engagement

Introducing culturally embedded and hands-on learning are highly effective ways of engaging students. Other initiatives engage families and communities, provide post-school pathways and re-engage students after periods of remote learning.

STEM

Introducing science, technology, engineering and maths programs and new STEM equipment help to develop students' critical thinking, creativity and digital literacy.

THE TOP THREE STRATEGIES USED TO ACHIEVE THEIR GOALS

School Leadership Development and Agenda Setting

Teaching and Learning Practice Development

Family and Community Engagement
