Grounded by the belief that every child deserves every opportunity to thrive, we're committed to giving all children access to quality education and breaking entrenched cycles of disadvantage affecting communities nationwide.

Schools Plus takes a systems-level approach that unites schools, governments, sectors, and philanthropy. By co-designing with entire education systems, we drive strategic place-based change that lasts, giving children and young people the opportunities they deserve.

Our work is focused on five strategic programs that address the most pressing challenges facing Australia's education system: Learning gaps, Wellbeing, First Nations children, Rural, Regional, and Remote children and Crisis and Climate resilience.
